

ENVIRONMENTAL POLICY STATEMENT

OUR BUSINESS

Founded in 1983, Anglo Printers Ltd is a Graphic Design, Litho, Digital & Wide Format printing operation based in the historic town of Drogheda in County Louth. The business has been driven by a revolution in technology, software and machinery in the last decade, and our young, dynamic and focused print management team is among the front-runners in the Irish Print Industry.

In the years since its inception, Anglo Printers has grown from a humble organisation to one of the leading players in commercial printing in Ireland. The core business of the firm centers on commercial lithographic, digital and wide format printing, on a vast and formidable range of printing presses, digital production engines, and wide format devices.

OUR CORE PRINCIPLES

Our overall objective is to continue to provide print solutions in response to our client's requirements using the most efficient and innovative print technologies available and in a manner that minimises the effect that our business has on the environment. Anglo Printers is fully committed to managing our operations to the highest possible standards, in accordance with the requirements of the ISO 14001:2015 Environmental Management Systems Standard, thus ensuring that our activities do not adversely affect the environment. Hand-in-hand with our environmental management system, Anglo Printers also operates in accordance with ISO 9001:2015, the Quality Management Systems Standard.

OUR STAFF AND CUSTOMERS

Our activities are managed by experienced and trained personnel, who receive every support from management in order to fulfil their responsibilities towards environmental management. Anglo Printers is committed to achieving a safe working environment, where our staff's views are valued and respected. We will work to meet the demands of our customers wherever possible, without compromising company policy or stated environmental objectives and compliance obligations.

MANAGEMENT OF THE ENVIRONMENT

Anglo Printers has established an Environmental Management System and aim to achieve the following objectives:

- Implement systems and procedures to facilitate continual improvement of the Environmental Management System.
- Manage our operations with diligence and with the awareness that our goal is to protect the environment and prevent pollution, by employing the best control mechanisms, procedures and processes which are proven technologically sound and economically feasible.
- Evaluate all environmental aspects of our business and determine the resulting environmental impacts.
- Foster openness, dialogue, enhanced communication and discussion with employees, clients, suppliers, contractors and all interested parties regarding our environmental performance and our environmental objectives and targets.
- Focus on the primary environmental concerns: waste management, material storage and general environmental management practices such as sustainable resource use (FSC, PEFC) and Energy Use & Generation.
- Comply with relevant environmental legislation, regulatory requirements and provide self-monitoring to ensure compliance.
- Train our employees to achieve continual improvement in environmental performance; the starting point is to comply fully with the requirements of ISO 14001:2015.
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the Environmental Policy, relevant environmental legislation and other obligations.

We will publish the Environmental Policy internally and communicate it to all employees. We will post the policy on our website, and will provide copies to interested parties on request.
